The murder of Mrs. Alice Kinnan at the doorway of the old Stanton mansion, One Hundred and Eighty-ninth street and Washington-avenue, in the Bronx, last night was the most brutal and mysterious that the delective force of this city has had to work on in years.

An autopsy held this afternoon shows that the woman was struck at least seven times with a heavy club or piece of iron that smashed the HAMILTON, June 9.—The races here skull to pieces. Finger marks on her left arm show where the man held
